About JFrog

JFrog, the creator of the DevOps platform, is on a "Liquid Software" mission to enable the flow of software seamlessly and securely from the developer's keystrokes to production. The end-to-end, hybrid JFrog Platform provides the tools and visibility required by modern software development organizations to fully embrace the power of DevOps. JFrog's universal, multi-cloud DevOps platform is available as open-source, self-managed, and SaaS services on AWS, Microsoft Azure, and Google Cloud. JFrog is trusted by millions of users and thousands of customers, including a majority of the Fortune 100 companies that depend on JFrog solutions to manage their mission-critical software delivery pipelines.
